LONNIE STEPHENS—he wrote a letter.  
This is a Republican year. "We've got 'em."  
The brains and culture of Missouri are against sixteen-to-one.  
The populists will not vote the Stephens Stone combine ticket.  
The Stephens Stone combine is lost beyond the hope of redemption.  
Stand up for Missouri, just as the voters of Vermont stood up for the Green Mountain state.  
The ex-confederates who will not vote for McKinley are taking kindly to the Palmer-Buckner ticket.  
G. GRIMM VEST says to working men vote for free silver, live out of doors, live on goat's milk and corn bread.  
Free silver is the poor man's money in the sense that it makes men poor, and keeps them in that condition.  
No voter in Holt county should cast his ballot for a man who endorses and advocates the Chicago platform, i. e. free trade, free riots.  
COCHRAN tells the farmers that the reason for the low price of grain, hogs, etc., is because silver was "demonetized" twenty three years ago. Of course they all believe it.  
LONNIE should have sold his national bank stock before he attempted to climb the Chicago platform. Imagine a Pop voting for a national banker for governor.

The Republican party of Missouri is united; it has placed a state ticket in the field which no honest Democrat can criticize, and which will have the entire support of the Republican party. This means victory. "We've got 'em."  
COCHRAN is king in Missouri this year, and the region of this popular ruler is not favorable to the Stephens-Stone combine of republicans, anarchists and demagogues. A big crop crop means a big Republican vote. Vote the Republican ticket.  
GRAND old Republican party! The people are with it. It is the dominant party in Missouri today. All other parties in Missouri are tugging against it. This is an admission that it is the big party in the state. Let them fuse. "Let the galled jades voice, our withers are unstrung." We can beat the combination. Let the heathen rage. "We've got 'em."  
When "the great crime of 1873" was enacted, the statistics show the United States had just \$774,000,000 in circulation. In 1895 this same oppressed and down-trodden people had \$2,217,000,000; but owing to free trade, tariff for revenue, and free silver excitement, it was piled away. The plan thing to do is to start that \$2,217,000,000 on its rounds. It can be done by opening up the nation's workshops and giving the millions work; and in no other way.  
If the new state house at Sedalia is to look anything like the picture there-of, the Sedalia Land company prints on its advertising bills, the people will vote against the measure. The capital at Jefferson City, compared to the Sedalia monstrosity, is a thing of beauty and a joy forever. See that you erase the joy forever from your ballot. Thus registering your vote against one of the big state steals, which it will prove to be, over put on foot in our state.

"If we go to a silver base, the merchant can take care of himself. With a lead pencil he can mark up everything in his store to meet the new conditions. But the wage earner cannot go to the pay roll and mark up his salary. The man who has \$10 in a savings bank cannot go into the bank and mark it up to \$10. The man who has put money into life insurance cannot mark up double the amount expressed in his policy. The pensioner cannot mark up his \$19 a month up to \$16." BENJAMIN HARRISON.

How it Hurts Farmers.

The farmers in the states along the Great Lakes and the Canadian border in general, are personally interested in the tariff question. The Wilson tariff reduced the rates of duty on grain, potatoes, meat, eggs, hay, etc., and put wool on the free list. This has enabled the Canadian farmers to find a profitable market for these products in the cities of the United States along the Canada border line.

Every ton of hay, every pound of wool, every bushel of potatoes, and in fact any increased volume of farm products, which thus finds a market in the United States, not only deprives our own farmers of the sale of that much of their products, but helps to depress prices by increasing the supply without increasing the demand. C. C. London.

The records of the United States custom house at Detroit show the following increase imports of farm products:

Two years	Two years	
McKinley law.	Wilson law	
Poultry, lbs.	150,822	275,246
Corn, bu.	1,940	2,382
Oats, bu.	2,408	22,483
Eggs, doz.	125,975	218,278
Hay, tons	81	2,280
Beef, lbs.	45,750	31,028
Mutton, lbs.	1,500	65,235

Barley, bu.	12,636	33,141
Potatoes, bu.	33,817	98,073
Wool, lb.	3,879	280,525

The above comparison is worthy the careful consideration of every farmer. These are the figures for but one point; and the same thing is true of every other, all along the Canada border. The following table shows the value of the imports of the farm products named during the fiscal year 1894, the last under the McKinley law, and the fiscal year 1895, the first under the Wilson law:

## Forecast of the Results of the Coming Election.

If McKinley and a Republican congress be elected.  
Confidence will again be restored, nearly all classes of manufacturers will commence operations, idle laborers will be put to work, commerce will revive, banks and other financial institutions will open up their vaults to the borrower, farm and other products will commence to advance in price, railroad earnings will increase and a wave of general prosperity will spread all over our country and everybody would be happy, but a few silver mine and bullion owners, who failed to pull the wool over the eyes of a majority of our people. The calamity howler and the free and unlimited coinage of silver at a ratio of 16 to 1, will be of a job, and the anarchist will have to seek a more congenial clime to propagate his dangerous doctrine, therefore let every voter go to the polls on Nov. 3d and vote for Wm. McKinley and the whole Republican ticket. You will be glad that you had the honor to be on the side of right and prosperity.

If Wm. J. Bryan and Popocratic congress should be elected.  
Confidence would be entirely destroyed, business depression would increase, factories would close down, public and private credit would be obliterated, banks and loaning institutions would immediately commence to call in all loans as fast as they fell due, and panic would rule supreme, commerce and commercial institutions would be ruined, and the only business that would have a boom would be that of the sheriff, trustee and receiver, farm and all other products would continue to fall in price and a general condition of anxiety, want and misery would result to the laboring classes. You ask how I know? I would say history reveals it, and it will take many years to undo the wrong, therefore take timely warning and on the 3rd day of November vote for Wm. McKinley and the whole Republican ticket and help to prevent such dire calamity.

Paste this in your hat and remember that I told you so.  
When your stomach begins to trouble you, it needs help. The help it needs, to digest your food, and until it gets it, you won't have any peace. Stomach trouble is very distressing, very obstinate, very dangerous. Many of the most dangerous diseases begin with simple indigestion. The reason is that indigestion (not digestion, not assimilation) weakens the system and allows disease germs to attack it. The antidote is Shaker Digestive Cordial, strengthening, nourishing, curative. It cures indigestion and renews strength and health. It does this by strengthening the stomach, by helping it to digest your food. It nourishes you. Shaker Digestive Cordial is made of pure herbs, plants and waxes, is perfectly harmless and will certainly cure all genuine stomach trouble. Sold by druggists, price 10 cents to \$1.00 per bottle.

DeWitt's Witch Hazel Salve is an antiseptic, soothing and healing application for burns, scalds, cuts, bruises etc., and cures piles like magic. It is nearly sold out.

What the Party Plank Means.  
The financial plank in the platform of the Republican means to leave things as they are. The plank does not mean that gold shall be the only kind of money. It means that all our money shall be of gold value. It means to have the all the paper money we need, but to have every paper dollar buy as much as a gold dollar. It means to keep our silver in circulation, and to hold the silver dollar up to its face value, as it is held now, and not drop to her bullion value, about 52 cents, as it would under free coinage. To continue this safe, stable, and reliable financial system, you should vote the Republican ticket from Wm. McKinley to township constable. Make no mistake about this. Run your pencil through every other ticket from top to bottom, excepting "The Republican Ticket," leave it as printed excepting erases you on the constitutional amendment to remove the state capital.

Robbing the Veterans.  
Has any one ever paused to consider how the triumph of free silver would rob the old soldiers of \$700,000,000 a year? The pension rolls show that there are 955,947 names of veterans, widows and orphans thereon to whom is paid annually the sum of \$129,053,822.50, and that there are 3,481 pensioners living in foreign countries who draw \$5,253 every year from the treasury.  
Nearly all of these people depend upon the amount they receive, as small as it is, for a living, and many of them are the widows or mothers of men who gave their lives for their country's good. This makes about 970,000 people who draw about \$140,000,000 annually, most of whom would be thrown upon public charity if the government was not just to them as it is.  
Suppose the Democratic party should succeed this fall in electing its candidates and forcing the silver standard upon the people. Gold would be sent up to a high premium and the value of the silver dollar would not be more than half what it now is. Would not the pensioners therefore be robbed of about 70,000,000 annually, which is half of what they now receive. Will the old soldiers therefore vote to deliberately rob themselves? The Nashville Sun says that the reason it is for free silver, is because will cut the old soldier's pension half in two. In order to prevent the Sun from realizing its fond hope, vote the Republican ticket, McKinley, Lewis, Crockett, et al.

Tetter, eczema and all similar skin troubles are cured by the use of DeWitt's Witch Hazel Salve. It soothes the itching, restores the tissues, and their natural condition, and never fails to cure piles. Sold by T. S. Hinde.

## Don't Be Gulled.

Remember the Republican party proposes to keep all your dollars worth 100 cents. They do not propose any change in our finance. The language of their platform is for "the existing standard." That means no change. They would leave gold and silver and paper in circulation, all as good as gold, worth 100 cents on the dollar, and they would add to the currency of the country such quantities of gold, silver or paper as would be safe and necessary for the transaction of business. This should be borne in mind. The Republican party believes that the existing standard is good enough, as good as gold, and that when our industrial conditions are improved the financial conditions will better themselves. All that we have to do is to maintain an honest and stable standard. We had good times under the existing standard before the Democrats came into power. What we need is a restoration of the policy of home manufactures, employment for laboring men who must consume the products of our farms, and restoration of confidence. Both things can be done on the existing standard. Don't forget to keep a good thing when you have a chance. Therefore vote the Republican ticket, national, state, congressional, senatorial and county.

There are so little you hardly know you are taking them. They cause no gripping, yet they act quickly and most thoroughly. Such are the famous little pills known as De Witt's Little Early Risers. Small in size, great in results. Sold by T. S. Hinde.

## Farmers Think About It.

In 1892, with every mill and factory running on full time, with every honest man who wished to work steadily employed, the consumption of domestic wheat in the United States amounted to over 385,000,000 bushels, and the consumption of corn to nearly two billion bushels—to be exact, 1,983,551,715 bushels.

In 1895, with the deadly Wilson law killing the purchasing power of our wage-earners, the home consumption of wheat had fallen to 315,000,000 bushels, and of corn to 1,194,000,000 bushels.

In that brief time the population of the United States had increased 5,000,000; our increased population of 70,000,000 consumers was able to buy 70,000,000 less bushels of wheat and 80,000,000 less bushels of corn than in 1892. The only way to get the country back to the prosperous conditions of 1892, is to vote the Republican ticket from top to bottom.

Chronic constipation is a painful, disagreeable and life-shortening difficulty. It deranges the system, causes sick headache, bad breath, and poisons the blood. It can be readily overcome by DeWitt's Little Early Risers. These little pills are great regulators. Sold by T. S. Hinde.

## Geo. Crowther.

makes encouraging reports over the district. He says that the interest and enthusiasm is much greater for the Republicans than it was two years ago, when Republicanism swept over the entire country, burying Democracy out of sight. Geo. has nothing to explain on the money question, as he stands where he always has for free silver, gold and the paper money that the Republican party has been giving us for years. His opponent, Mr. Cochran, has always stood by the Democratic party that has until this year endorsed sound money. Knowing that he could not win in a congressional race upon the record of his party he fell from grace into the ranks of the silver party. The voters are being made aware of the fact that the money question has been conceived in sin and born in iniquity and those who have forced the money question upon the people will find that the voters are not going to place into power a set of men who represent a set of principles that they know augurs no good to the American people and her posterity. Mr. Crowther represents a party with principles, and everybody knows what to expect when George is elected. He is a young man who made a gallant fight two years ago almost single handed and alone and was elected by a big majority. There is not a single reason why every Republican should not vote for him again. His discussions of the questions at issue show that he is equal to the best. His opponent has found that out and has wisely concluded to let George alone.

## Gov. Stone Approves Sedalia.

Every taxpayer in Missouri should bear in mind that if the capital removal amendment is defeated a systematic effort will be made by Jefferson City to secure an appropriation of at least \$500,000 to repair the old buildings or erect new ones. The press of that city has labored assiduously to make the people believe that the removal of the capital will cost the state a large amount of money, but Gov. Stone's message completely disproves the assertion.—Sweet Springs Herald.

The party in power has reduced the farmer's wool to 7 cents a pound, his sheep to 75 cents each, his wheat to 40 cents a bushel, his hogs to 25 cents a pound, and his other products to a point where they are scarcely worth marketing. Now they want him to put his hand on the back of his neck and let the party try the experiment of trying to cut it in two without hurting him.—Mr. Bryan when in Congress used to bring this condition of affairs about. If you want him in position where he can continue to do you harm vote for him. If you don't and you want prosperity to again come to our land as it was in 1892 Vote the Republican ticket from top to bottom.
